Part 1 - Open Access Copyright Assignment

Assignment of copyright

1.1 In consideration for acceptance and publication of the Article, the Named Authors of the Article and/or the Institution hereby assign, where necessary by present assignment of future copyright, to IOP and DPG with full title guarantee the entire copyright in all original material published as part of the Article (which expression includes but is not limited to the text, abstract, tables, figures and graphs, related corrigenda or “comments” and multimedia content but excludes any other item referred to as supplementary material) throughout the world for the full term of copyright (including any extensions or renewals thereof) for all media and formats, whether known or unknown. Such assignment shall be effective only if the Article (or any resubmission of the Article) is accepted for publication. For the avoidance of doubt, copyright does not subsist in any fundamental data underlying the Article and nothing in this agreement is intended to limit access to or use of such data.

1.2 If the Article, or any part of it, is protected by Crown Copyright, in consideration for acceptance and publication of the Article, the relevant Named Authors and/or the relevant originating department or agency hereby grant IOP and DPG a royalty-free worldwide licence for the full term of copyright (including any extensions or renewals thereof) for all media and formats, whether known or unknown, to do in relation to the Article all acts restricted by copyright worldwide.

1.3 In consideration for acceptance and publication of the Article, the Named Authors and/or the Institution hereby grant IOP and DPG a royalty-free non-exclusive worldwide freely transferrable licence for the full term of copyright (including any extensions or renewals thereof) to do in relation to any supplementary material not deemed to be part of the Article and/or any video abstract all acts restricted by copyright worldwide. This shall include, but not be limited to, making the material available under any licence that IOP or DPG deems appropriate for purposes including, but not limited to, the maximisation of visibility and the long term preservation of the content.

1.4 Each of the Named Authors consents to the publication and processing by IOP and DPG of their email addresses.

1.5 Each of the Named Authors and, where relevant, the Institution consents to the publication of the Article under the Creative Commons Attribution 3.0 Unported licence (<https://creativecommons.org/licenses/by/3.0/>) or any successor to that licence.
