Welcome to dissem.in

Dissem.in detects papers behind pay-walls and invites their authors to upload them in one click to an open repository.

Green open access

Many researchers do not use their right to make their papers freely available online, in addition to the paywalled version offered by traditional publishers. This forces libraries to buy overpriced electronic subscriptions to journals, when they can afford them at all.

Open repositories

Uploading your papers on your own webpage is not enough. Such copies are less stable and harder to find than documents uploaded to well-indexed repositories. Dissem.in searches for copies of your papers in a large collection of open repositories and tells you which ones cannot be accessed.
