Attendees & Participation

Participation is upon invitation only. The number of participants to be invited is max. 30 persons, we expect that about 20-25 people shall be able to attend. These include in particular the persons listed in Table 1 below. A look at it reveals that many people are or have been serving in several boards and organisations, which explains the aim to ultimately bring them together in a joint workshop.

The ad hoc Committee on Permissions of the IMU (CoP, a subcommittee of CEIC) is intending to submit its final report in Spring 2024, thus providing for the first time a comprehensive overview of publishers policies on (moving) paywalls, strategy, and different copyright agreements—and therefore offering the possibility to devise a realistic concept for the next step, GDML₁. With a thorough preparation, this will be one of the main themes of the workshop.
