African Journals Online (AJOL)

African Journals OnLine (AJOL) is the world's largest and pre-eminent collection of peer-reviewed, African-published scholarly journals.

Historically, scholarly information has flowed from North to South and from West to East. It has also been difficult for African researchers to access the work of other African academics.

In partnership with hundreds of journals from all over the continent, AJOL works to change this, so that African-origin research output is available to Africans and to the rest of the world.

AJOL is a Non-Profit Organisation based in South Africa.

The Adam Helms Lecture Series

The Adam Helms is an annual event taking place at Stockholm University Library. The lecture is arranged by The Swedish Publishers' Association and Stockholm University Library in collaboration, with the intention to invite authorities within the field of publishing and the book market.

The lecture was initiated in 1994 in the memory of Adam Helms, a well-known publisher and authority on book marketing whose private book collection on publishing and bookselling is deposited by The Swedish Publishers' Association at Stockholm University Library. Until 2004 the lecture series was printed but is now digitised and continuously published as e-only in open access.
